

# BUZZ FROM THE BEEHIVE

SILVERLEAF ACADEMY - USA RIVER CAMPUS

## Dear Parents & Guardians

Dear Parents and Guardians,

We are excited to share with you a glimpse into the vibrant happenings at our school for the month of February. From enriching academic achievements to engaging co-curricular activities, join us as we reflect on the memorable moments that have shaped this past month and look forward to the exciting ventures ahead.

### IN THE SPOTLIGHT

We are thrilled to share the remarkable achievement of our students who participated in the International Day of Women and Girls in Science celebration at the AICC Arusha. Our students showcased their passion and knowledge by presenting an insightful demonstration on how electric circuits work. It's a moment of great pride for us to announce that Silverleaf was among the two schools specially invited to attend this prestigious event. Our utmost appreciation to Nelson Mandela Institute of Science and Technology (NM-IST) and the Ministry of Education for this opportunity.

## STUDENT FEATURE

The District Scout Camp, held from the 22nd to the 25th, was a celebration of the birth anniversary of the founder of Scouting worldwide, Sir Baden Powell. Our students from the Scout Club enthusiastically attended this event, joining fellow scouts in various activities focused on child safety, patriotism, and community service such as environmental cleanup. It was a time of learning and bonding, where scouts immersed themselves in the values of Scouting while having fun and making a positive impact on their surroundings.

## WHAT STUDENTS ARE LEARNING

Debating isn't just about mastering language; it's a catalyst for leadership, confidence, and collaboration. Through lively discussions, students enhance vocabulary and language skills while building leadership qualities. Debates also foster teamwork as students work together to craft persuasive arguments. In essence, debating offers a comprehensive learning experience, equipping students with essential skills for success in academics and beyond.

## WHAT HAS OUR TEAM BEEN UP TO?

Our teachers have undergone specialized training focused on improving transition routines within our learning environment. With a keen emphasis on smooth movements between subjects and group activities, our educators are now equipped with valuable strategies to ensure seamless transitions. From transitioning between subjects to smoothly navigating different group tasks, our teachers are dedicated to maximizing instructional time and creating a conducive learning atmosphere.
